

Classroom Management for Industrial Arts – Mr. Murphy

Classroom Expectations

1. Safety First (please refer to the Industrial Arts Safety Rules)!
2. Craftsmanship and attention to detail in all efforts.
3. Respectful, considerate interactions between all students and teachers.
5. Be safe, productive, responsible and respectful at all times. If you're not using the Applied Arts equipment to work on your projects, stay in your seat and be productive.
5. No food or gum.

Interventions

1. Verbal warning and/or individual instruction targeting the inappropriate behavior.
2. Written work assigned to develop an awareness of a more adaptive role in the classroom.
3. Phone calls to parents to get their help with their student's education.
4. Refer to principal in cases of severely disruptive behavior (fighting, disrespect, or consistent behavior problems over a long period of time) that have not changed as a result of teacher intervention.

Positive Reinforcements

A job well done has its own rewards. Pride in craftsmanship and attention to detail are our goals so when a job is well done, I make sure the student knows it as well as their peers and mine.
